

## **Meridian Construction Expands to a Wider Market**

Fort Myers, Fla. (November 13, 2008) - Meridian Construction Consultants is now the newest division of Meridian Construction. The newly opened division has been created to serve a wider market and to change the way clients and contractors work together. As an expanding consulting company, Meridian will be providing solutions to challenged problems. Meridian will come to you, "anytime, anywhere."

Much like the founding company, the new division will still serve all their clients with the highest quality. They will continue to keep their 24-hour web-based Internet project management system, in real time, to provide clients with all the latest updates. This is especially useful for those clients who are not located in the same city as their projects that they are having constructed.

Meridian C.E.O., Mr. Lynn Murtagh, already flies his plane around the Southeastern U.S. for jobs that are awarded to him. He goes above and beyond his competitors. When asked about why he would like to expand his company he states, "I already have experience in the Southeastern U.S. doing other projects, so this seems to fit nicely." He has been in the construction industry for over 30 years and has held licenses in 8 different states. He is also a LEED accredited professional. To learn more about Meridian Construction Consultants, please visit their website at [www.meridianprofessionals.com](http://www.meridianprofessionals.com).
